

AA SCREENING DETERMINATION

Of

Clara Ferbane Water Treatment Plant, Co. Offaly, Remedial Action List (RAL) Upgrade under the ECI Programme.

In accordance with Article 6(3) of the EU Habitats Directive (Directive 92/43/EEC) and Regulation 42(1) of the European Communities (Birds and Natural Habitats) Regulations 2011 as amended, Irish Water has undertaken Appropriate Assessment screening to assess, in view of best scientific knowledge and the conservation objectives of the site, if the project, individually or in combination with other plans or projects is likely to have a significant effect on European Site(s).

The proposed upgrade project will involve the installation of new infrastructure at the Water Treatment Plant site including flocculation and coagulation tanks, process upgrades, alteration and extension to internal access roads, and associated development such as underground pipework, chambers, kiosks and site ancillary works.

In this context, particular attention was paid to the European Site(s) listed below:

- *River Shannon Callows SAC 000216*
- *Middle Shannon Callows SPA 004096*

In accordance with Regulation 42(7) of the European Communities (Birds and Natural Habitats) Regulations 2011 as amended, **Irish Water has made a determination following screening that an Appropriate Assessment is not required** as the project is not directly connected with or necessary to the management of the sites as European site(s) and **as it can be excluded**, on the basis of objective information and in light of the conservation objectives of the relevant European Site(s), **that the project, individually or in combination with other plans and projects, would have a significant effect on a European Site.**

This determination is based on the nature, location, scale and duration of the proposed works, including any temporary works and excludes any consideration of mitigation measures.

Full records of the assessment, reports, surveys, consultations, and observations are held by the competent authority and available for public review as requested.

Signed:

A handwritten signature in blue ink, appearing to read 'John Casey', is centered on the page. The signature is fluid and cursive, with a large 'J' and 'C'.
